Samer ALabed

CONTACT@SAMERALABED.COM

SUMMARY

I actively drive the advancement of machine learning applications and report generation in cardiac imaging. I have published my work in prestigious journals, influenced European guidelines, and earned awards from the UK Parliament, the Radiological Society of North America, and the Royal College of Radiologists.

I led the development of a cardiac MR segmentation tool, integrating my expertise in big data, coding, and evidence-based medicine. Already used in over 5,000 MRI scans at Sheffield Teaching Hospitals, it saves thousands by reducing manual segmentation costs and eliminating the need for commercial solutions, demonstrating my commitment of bridging research with clinical practice.

In tandem with my research, my clinical focus is on cardiac imaging, particularly the assessment of ischaemic heart disease with stress perfusion cardiac MR and coronary CT angiography. I completed an advanced cardiac imaging fellowship at the Royal Papworth Hospital and hold high-level accreditations in both cardiac MR and CT.

Teaching is integral in my career. I have organised national conferences and courses, such as the BSCI annual meeting, BCS cardiac CT course, and BSCMR webinar series. I teach at various levels, including international courses, supervising PhD students, mentoring juniors, and contributing to the departmental radiology teaching program. The positive feedback from the BSCMR webinar series prompted its continuation, highlighting its impact on learners. I received an Educational Award from Health Education England, earned a Postgraduate-Certificate in Medical Education and became a Fellow of the Higher Education Academy.

Leadership is central to my professional identity. I represented doctors and postgraduate students, and served as the co-chair of the BSCI and BSCMR trainee committees and Trainee Editorial Board of *Radiology: Cardiothoracic Imaging*, actively driving the education of cardiac imagers. On the RCR academic committee and AI working group, I helped develop RCR guidelines for evaluating AI deployment in radiology. Over six years, I managed the on-call registrars' rota at the Sheffield Radiology Training Scheme, ensuring smooth operations during the transition to the new junior doctors' contract and the COVID-19 pandemic.

PROFESSIONAL MEMBERSHIPS

GMC	General Medical Council
RCR	Royal College of Radiologists
ESR	European Society of Radiology
ESC	European Society of Cardiology
ERS	European Respiratory Society
BSCMR	British Society of Cardiovascular Magnetic Resonance
BSCI	British Society of Cardiovascular Imaging
RSNA	Radiological Society of North America
SCMR	Society for Cardiovascular Magnetic Resonance
ESCR	European Society of Cardiovascular Radiology
EACVI	European Association of Cardiovascular Imaging

QUALIFICATIONS

2024	**CCT** - Certificate of Completion of Training in Radiology	General Medical Council
2023	**PhD** - AI in cardiac MRI	University of Sheffield
	◗ Thesis: AI in cardiac MRI to predict prognosis and treatment response	
	◗ Supervisors: Professor Andy Swift and Professor Haiping Lu	
2021	**FHEA** - Fellow of the Higher Education Academy	Higher Education Academy
2020	**PgCert** - Medical Education	University of Dundee
2019	**MSc** - Clinical Research Methods (Distinction)	University of Sheffield
2018	**FRCR** - Fellow of the Royal College of Radiologists	Royal College of Radiologists
2013	**MSc** - Evidence Based Health-Care	University of Oxford
2011	**MD** - Medical Degree	Damascus University

RESEARCH EXPERIENCE

2024-	**Senior Clinical Research Fellow in Radiology**	University of Sheffield
2022-24	**NIHR Clinical Lecturer in Radiology**	University of Sheffield
2019-22	**Wellcome Trust Research Fellow in Cardiac MRI**	University of Sheffield
	◗ Data scientist of the ASPIRE cardiac MRI and CT database	
	◗ Helped train, validate and audit deep learning cardiac MRI segmentation	
2014-19	**NIHR Academic Clinical Fellow in Radiology**	University of Sheffield
	◗ Performing and evaluating diagnostic accuracy studies in radiology	
2010-	**Cochrane Systematic Reviewer**	Cochrane Heart

CLINICAL EXPERIENCE

2024-	**Consultant Cardio Radiologist**	Sheffield Teaching Hospitals
	◗ Cardiac MRI level 3 accreditation - SCMR	
	◗ Cardiac CT level 3 accreditation - BSCI	
2023-24	**Advanced Cardiothoracic Imaging Fellowship**	Royal Papworth Hospital
	◗ Supervisors: Dr Bobby Agrawal and Dr Jonathan Weir-Mccall	
2022-23	**Cardiothoracic Radiology Training**	Sheffield Teaching Hospitals
	◗ + 3 months Cardiac CT experience - Leeds University Hospitals	
2019-22	**Out-of-Programme for Research (OOPR)**	Sheffield Teaching Hospitals
	◗ Acute and trauma CT and diagnostic and interventional ultrasound	
2014-19	**Core Radiology Training**	Sheffield Teaching Hospitals
	◗ ST4 Acute and general CT, Oncology imaging, US intervention	
	◗ ST3 Chest, Uro & Gynae, Paediatric and Vascular radiology	
	◗ ST2 Neuroradiology, GI, MSK, Breast and Nuclear imaging	
	◗ ST1 Plain radiography, US, CT, Fluoroscopy	
2013-14	**Clinical Foundation Training**	Buckinghamshire Healthcare Trust
	◗ Cardiology including coronary care unit, heart failure and valve clinics	

GRANTS & AWARDS

Principal Investigator

£87,518	AI-enhanced medical imaging reporting	NIHR
£49,994	SYDHH Innovation Pipeline - Patient Friendly Reports	South Yorkshire Digital Health Hub
£27,500	Clinical Lecturer Starter Grant: Automating Cardiac Imaging	Academy of Clinical Sciences
£15,000	Topol Digital Fellowship: AI-enhanced medical imaging reports	NHS England
£3,000	Education, Research and Innovation Grant - 2018	Health Education England
£3,000	Constance Thornton Grant for Radiology Research - 2017	RCR
£23,500	University of Oxford MSC Scholarship - 2011	The Saïd Foundation

Co-Investigator

£469,272	Pulmonary hypertension induced Right heart failure	British Heart Foundation
£49,998	AI-Assisted Diagnosis of Pulmonary Hypertension	NIHR i4i
£199,946	Building a database of imaging in suspected PH	Janssen Pharmaceuticals
£114,354	Automatic Echo assessment to improve PH diagnosis	Janssen Pharmaceuticals
£10,000	NOAC for myocardial infarction - a network meta-analysis	NIHR Cochrane Incentive Award
£7,500	NOAC for atrial fibrillation - a network meta-analysis	NIHR Cochrane Incentive Award

Awards

£1500	AI-NET Fellowship - Excellence in AI Research - 2023	DAAD
Winner	NHS Parliamentary Awards - National Awards - 2023	NHS England
Winner	The Future of NHS Award - North East & Yorkshire - 2023	NHS England
Finalist	Digital Innovator of the Year - 2023	HSJ Awards
Distinction	Radiology Editor's Recognition Award - 2022 & 2023	Radiology: RCTI
£5000	NHS Innovation Award - 2022	Medipex
1st prize	Oral Abstract Winner at RCR Global - 2022	RCR
£500	British Thoracic Society Conference Award - 2022	BTS
£250	European Congress of Radiology Travel Award - 2022	RCR
1st prize	School of Radiology - Yorkshire & Humber - 2022	Health Education England
$1000	RSNA Trainee Research Prize - 2021	RSNA
£500	The Sir Ernest Finch Travelling Fellowship - 2021	Sheffield Teaching Hospitals
1st prize	Professor Ronald Grainger Prize - 2021, 2020 & 2018	Sheffield Teaching Hospitals
1st prize	George and Vera Ansell Radiology Prize - 2018	RCR

IMPACT AND RECOGNITION

Citations in Guidelines

2022	Diagnosis and treatment of pulmonary hypertension	ESC & ERS
2019	Management of patients with supraventricular tachycardia	ESC
2015	Diagnosis and management of pericardial diseases	ESC

Media Coverage

Jul 2023	MP visits finalists for transformative AI heart disease technology.	The Star
Jun 2023	Sheffield Hospitals heart diagnosis AI technology announced as regional winner of Future NHS Award.	The Star
May 2023	NHS doctors want ChatGPT AI to write patient heart reports so they can see more people.	The Daily Mail
Mar 2023	Artificial intelligence can save NHS time and money with heart scans.	The Mirror
Dec 2022	NHS heart patients to receive quicker diagnosis due to Sheffield University and Teaching Hospitals innovation.	The Star
Dec 2022	AI spots damage on heart scans in seconds.	The Daily Mail
Oct 2022	Validation of AI Cardiac MRI Measurements.	RSNA Radiology Podcast

SERVICE TO RESEARCH COMMUNITY

Journal Editor Roles

Deputy	Radiology: Cardiothoracic Imaging
Contact	Cochrane Heart

Peer Review

11 reviews	Radiology: Cardiothoracic Imaging
8 reviews	European Heart Journal - Cardiovascular Imaging
7 reviews	Clinical Radiology
2 reviews	JACC: Cardiovascular Imaging
2 reviews	Insights Into Imaging
2 review	Magnetic Resonance Imaging
1 review	Clinical Pediatrics
3 reviews	RCR Seed Grant
2 reviews	RCR Kodak Fellowship
1 review	RCR Roentgen Professorship

Invited Panel Chair

2025	BSCI Annual Conference
2023	BSCMR Annual Conference

LEADERSHIP AND MANAGEMENT

National Leadership Role

- Co-Chair Trainee Committee - British Society of Cardiovascular Imaging
- Co-Chair Trainee Committee - British Society of Cardiac Magnetic Resonance
- AI working group - RCR Clinical Academic Committee
- Expert Panel for Radiology Research - RCR RADIANT

Local Committee Membership

- Research Excellence Framework (REF) 2024 Commitee for Clinical Medicine
- Co-Lead Imaging and omics AI interest group - University of Sheffield
- Radiology Training committee - Sheffield Teaching Hospitals

Rota Management

- Radiology on-call coordinator working closely with HR since 2018
- Developed code to calculate fair on-call shifts for the radiology department
- Performed a cost-effectiveness analysis for multiple on-call rota scenarios
- Improved on-call cover by introducing Twilight shifts for junior trainees
- Responded to Covid-19 pressure with a double cover system described as a "stroke of genius" by the Clinical Director

Student and Trainee Representation

- Representative of less than full-time radiology trainees
- Student councillor - University of Sheffield (2014/15)
- Student representative - University of Oxford (2012/13)

Management Courses

- Intensive Course on Leadership - University of Sheffield
- Decision Making - University of Oxford
- Making Decisions Based on Data - Udacity University
- Economic Evaluation & Healthcare Financing - University of Sheffield

TEACHING

National Teaching Organisation

- Programme Chair of the BSCI/BSCCT 2024 annual conference at Sheffield
- Organiser of the BSCMR 2023 Webinar series
- Organiser of the BSCI/BSCCT Cardiac CT workshop at BCS 2022

Post-Graduate Teaching Experience

- PhD co-supervisor at University of Sheffield: Turki Nasser and Khalid Ghamdi
- Lecturer MRes Cardiovascular Medicine - "How to write Systematic Reviews"
- Mentor to junior radiology registrars and research trainees
- Tutor - International Critical Appraisal Skills Programme, University of Oxford
- Regular one-to-one and small group departmental radiology teaching
- Educational Advisor - RadiGo radiology teaching website

Undergraduate Teaching Experience

- Anatomy Demonstrator, Medical School, University of Sheffield
- Co-Supervisor - Medical School Student Selected components
- Supervisor - Summer Programme for International Research Internship
- Lecturer - SAMS virtual EBM courses with > 20,000 views on YouTube

Teaching Courses

- FHEA - Fellow of the Higher Education Academy
- PGCert in Medical Education for Radiology - University of Dundee
- Gateway Course in Medical Education - University of Sheffield
- Teaching and Learning skills - University of Oxford
- Training the Trainer course - University of Oxford

ORAL PRESENTATIONS

2024 Post-Treatment MRI Changes in Pulmonary Hypertension — London
- CMR 2024 - International Cardiac Magnetic Resonance Conference

2023 Large Language Model Mortality Prediction in CT Reports — Berlin
- European Society of Cardiac Radiology

2023 From automated cardiac measurements to auto reporting — London
- Dragon's Den - Royal College of Radiologists

2022 Quality of Reporting of Artificial Intelligence studies — Dubai, UAE
- Royal College of Radiologists Global Conference

2022 Cardiac Findings on General CT — Dubai, UAE
- Royal College of Radiologists Global Conference

2021 AI Cardiac MRI Measurements Clinical Benchmarking — Chicago, USA
- Radiological Society of North America

2021 Using AI to improve pulmonary hypertension assessment — London
- National Pulmonary Hypertension Research Forum

2021 The future of cardiac imaging — Sheffield
- Yorkshire & Humber Chest and Cardiac Regional Study Day

2021 Clinical Validation of Cardiac MRI AI Segmentation — Sheffield
- School of Radiology - Yorkshire & Humber annual meeting
- Professor Ronald Grainger Memorial Meeting
- Clinical Imaging Clinical Research (CICR) meeting
- Department Research in Progress Meeting (DRIP)
- Sheffield Medical School Research Conference

2021 Natural Language Processing in Radiology Audit — Leeds
- Yorkshire School of Radiology Annual Conference

2017 Cost per MRI diagnosis in developmental impairment — Liverpool
- Royal College of Radiologists Annual Conference

2015 CTPA detection rates in spinal cord injury — Bangor
- Society of Radiologists in Training Annual Conference

2012 The need for Evidence-Based Medicine in Syria — London
- Saïd Foundation Annual Dinner
- Attended by UK Ministers, MPs, Lords and Ambassadors at The V&A Museum

INTERNATIONAL POSTER PRESENTATIONS

ESCR 23	Radiology reports of cardiac MRI scans predict prognosis	Berlin
ESCR 22	Outcome prediction with CMR in pulmonary hypertension	Rome
ERS 22	Correlation of emPHasis-10 with clinical tests	Barcelona
EACVI 22	Quality of reporting in AI cardiac MRI segmentation studies	London
ECR 22	Reporting cardiac findings on body CT over the last decade	Vienna
SCMR 22	Time-resolved cardiac MRI prgonostic feature extraction	Virtual
ERS 21	Automated CMR assessment in pulmonary hypertension	Virtual
EuroCMR21	High repeatability of deep learnt CMR measurements	Virtual
EuroCMR21	Automated CMR correlates with right heart catheter	Virtual
ECR 21	Deep Learning derived T1-mapping values	Virtual
ECR 21	Natural language processing to audit CT Head reports	Virtual
SCMR 21	Machine Learning in Cardiac MRI Predicts Mortality	Virtual
RSNA 20	Meta-analysis of T_1-mapping in pulmonary hypertension	Virtual
ERS 20	Cardiac MRI predicts prognosis in pulmonary hypertension	Virtual
ESC 17	Beta-blockers in children with congestive heart failure	Paris

STATISTICAL & CODING SKILLS

Software skills

- **Python** fluent command of data management, analysis and visualisation
- **R Language** used extensively for most common statistical tests
- **SPSS** used extensively for most common statistical tests
- **STATA** used extensively for diagnostic accuracy meta-analyses
- **LaTeX** used the LaTeX typesetting system to write my PhD thesis

Statistics Courses

- Statistics for Health Care Research - University of Oxford
- Advanced Statistics for Health Researchers - University of Sheffield
- Descriptive and exploratory data analysis - University of Hagen
- Diagnostic accuracy meta-analysis - University of Birmingham
- Python Data Analysis course - University of Sheffield
- Data Analysis Skills for Researchers - University of Sheffield
